Independent Auditor's Report

To the Governing Board
San Leandro Unified School District
San Leandro, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of San Leandro Unified School District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of San Leandro Unified School District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Change in Accounting Principle

As discussed in Notes 1 and 17 to the financial statements, San Leandro Unified School District has adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, which has resulted in a restatement of the net position and fund balance as of July 1, 2020. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 15, budgetary comparison information on pages 72 and 73, schedule of changes in the District's total OPEB liability and related ratios on page 74, schedule of the District's proportionate share of the net pension liability on page 75, and the schedule of District contributions on page 76, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise San Leandro Unified School District's financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for the purposes of additional analysis as required by the audit requirements of *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the financial statements.

The combining non-major governmental fund financial statements, the schedule of expenditures of federal awards, and the other supplementary information listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting

and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining non-major governmental fund financial statements, the schedule of expenditures of federal awards, and the other supplementary information listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated January 6, 2022 on our consideration of San Leandro Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of San Leandro Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering San Leandro Unified School District's internal control over financial reporting and compliance.

A handwritten signature in cursive script that reads "Eide Sully LLP".

Management's Discussion and Analysis
June 30, 2021

This section of San Leandro Unified School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2021, with comparative information for the year ended 2020. Please read it in conjunction with the District's financial statements, which immediately follow this section.

DISTRICT PROFILE

The San Leandro Unified School District is located in Alameda County. The District serves approximately 9,066 students of a diverse population. The District currently operates 13 schools, consisting of 8 elementary (grades K-5), 2 middle schools (grades 6-8), one comprehensive high school (grades 9-12), one continuation high school, one adult school and one independent study program. As of June 30, 2021, the District employs on a regular basis approximately 539 certificated and 365 classified employees.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the District. This annual report consists of three parts – the management discussion and analysis (this section), the basic financial statements, and the required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

The Government-Wide Financial Statements present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District (including capital assets), deferred outflows, as well as all liabilities (including long-term liabilities) and deferred outflows. Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.

- The *Governmental Funds* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.
- The *Proprietary Funds* are prepared using the economic resources measurement focus and the accrual basis of accounting.
- The *Fiduciary Funds* are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

Figure A-1 on the next page summarizes the major features of the District's basic financial statements, including the portion of the District's activities they cover and the types of information they contain.

**Figure A-1
 Major Features of the District wide and Fund Financial Statements**

Type of Statements	District-wide	Governmental Funds	Fiduciary Funds	Proprietary Funds
<i>Scope</i>	Entire District, except fiduciary activities	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Instances in which the District administers resources on behalf of someone else	Activities of the District that operate like a business, such as self-insurance funds
<i>Required financial statements</i>	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Activities 	<ul style="list-style-type: none"> • Balance sheet. • Statement of Revenues, Expenditures & changes in fund balances • Reconciliation to government wide financial statements 	<ul style="list-style-type: none"> • Statement of fiduciary net assets. 	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Revenues, Expenses, & Changes in Net Position • Statement of Cash Flows
<i>Accounting basis and Measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets, deferred outflows, liabilities both financial and capital, short-term and long-term, and deferred outflows	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long term debt included	All assets and liabilities, both short-term and long-term; standard funds do not currently contain non-financial assets, though they can	All assets and liabilities, both short-term and long-term; standard funds do not currently contain non-financial assets,
<i>Type of inflow/outflow information</i>	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenue and expenses during the year, regardless of when cash is received or paid	All revenue and expenses during the year, regardless of when cash is received or paid

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include all assets, deferred outflows, liabilities, and deferred inflows of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's operating results. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we present the District activities as follows:

Governmental Activities - All of the District's services are reported in this category. This includes the education of kindergarten through grade twelve students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental Funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary Funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Fund Net Position. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities, such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS A TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for funds held on behalf of others, like funds for, employee retiree benefits and pensions. The District's does not currently have any fiduciary activities.

THE DISTRICT AS A WHOLE

Net Position

The District's net position was \$(40.7) million for the fiscal year ended June 30, 2021. Of this amount, \$(100) million was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the governing board's ability to use net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

Table 1

	Governmental Activities	
	2021	2020
Assets		
Current and other assets	\$ 164,304,523	\$ 159,839,905
Capital assets	259,331,502	259,358,744
Total assets	423,636,025	419,198,649
Deferred outflows of resources	51,398,921	60,975,306
Liabilities		
Current liabilities	25,718,986	21,587,427
Long-term liabilities	486,408,989	482,099,727
Total liabilities	512,127,975	503,687,154
Deferred inflows of resources	3,584,106	20,141,006
Net Position		
Net investment in capital assets	20,549,326	5,196,937
Restricted	39,500,977	21,597,953
Unrestricted	(100,727,438)	(74,138,431)
Total net position	\$ (40,677,135)	\$ (47,343,541)

The \$(101) million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements decreased from (\$74.1) million to (\$101) million.

Changes in Net Position

The results of this year's operations for the District as a whole are reported in the Statement of Activities on page 17. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Table 2

	Governmental Activities	
	2021	2020*
Revenues		
Program revenues		
Charges for services	\$ 110,067	\$ 668,030
Operating grants and contributions	42,216,102	30,632,852
General revenues		
Federal and State aid not restricted	57,253,683	56,311,780
Property taxes	61,326,853	53,786,874
Other general revenues	2,152,521	1,469,493
Total revenues	163,059,226	142,869,029
Expenses		
Instruction-related	110,495,546	98,291,293
Pupil services	11,794,536	12,680,014
Administration	6,933,722	7,045,808
Plant services	17,362,335	8,531,450
All other services	14,016,169	12,631,128
Total expenses	160,602,308	139,179,693
Change in net position	\$ 2,456,918	\$ 3,689,336

* The revenues and expenses for fiscal year 2020 were not restated to show to the effects of GASB 84 for comparatives purposes.

Governmental Activities

As reported in the *Statement of Activities* on page 17, the cost of all of our governmental activities this year was \$160.6 million. The cost was paid by those who benefited from the programs was 0.1 million. Operating grants and contributions subsidized certain programs in the amount of \$42.2 million. We paid for the remaining "public benefit" portion of our governmental activities with \$61.3 million in taxes, unrestricted Federal and State aid of \$57.3 million and other revenues of \$2.2 million for the fiscal year ended June 30, 2021.

In Table 3, we have presented the cost and net cost of each of the District's largest functions: instruction related, student support services, administration, maintenance and operations, and other. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3

	Total Cost of Services		Net Cost of Services	
	2021	2020*	2021	2020*
Instruction-related	\$ 110,495,546	\$ 98,291,293	\$ (78,736,027)	\$ (74,802,023)
Pupil services	11,794,536	12,680,014	(4,382,431)	(6,739,896)
Administration	6,933,722	7,045,808	(5,929,366)	(6,456,647)
Plant services	17,362,335	8,531,450	(16,702,610)	(8,280,893)
All other services	14,016,169	12,631,128	(12,525,705)	(11,599,352)
Total	\$ 160,602,308	\$ 139,179,693	\$ (118,276,139)	\$ (107,878,811)

* The total and net cost of services for the fiscal year were not restated to show the effects of GASB 84 for comparative purposes.

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$142.8 million, which is a decrease of \$0.4 million from last year (Table 4).

Table 4

Governmental Fund	Balances and Activity			
	June 30, 2020 June 30, 2021 as restated	Revenues and Other Financing Sources	Expenditures and Other Financing Uses	June 30, 2021
General	\$ 16,463,448	\$ 128,654,087	\$ 117,722,038	\$ 27,395,497
Student Activity Fund	520,152	177,303	231,135	466,320
Adult Education	1,895,452	2,489,748	2,422,311	1,962,889
Cafeteria	2,370,153	5,770,161	3,536,127	4,604,187
Building	94,003,265	4,277,385	19,832,260	78,448,390
Capital Facilities	210,998	86,598	-	297,596
Special Reserve Fund for Capital Outlay Projects	2,336,446	83,245	27,293	2,392,398
Bond Interest and Redemption	25,367,594	54,553,402	52,715,284	27,205,712
Total	\$ 143,167,508	\$ 196,091,929	\$ 196,486,448	\$ 142,772,989

The primary reasons for these decreases are:

- a. Our General Fund is our principal operating fund. The fund balance in the General Fund increased \$16.5 million to \$27.4 million. This due to:
 1. Increasing enrollment
 2. Receipt of one-time state funding
 3. Collection of restricted facilities funds for future construction
- b. Our special revenue funds increased \$2.2 million from the prior year.

- c. The building fund decreased from \$94.0 million to \$78.5 million as a result of refunding of bond proceeds net of facilities expenditures.
- d. The debt service funds showed an increase of approximately \$1.8 million for future debt payments.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted on March 9, 2021. (A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 72.

- Significant revenue revisions of approximately \$14.8 million were made to the 2020-21 budget due to additional state and federal COVID funds that were received for to address learning loss as a result of distance learning and hybrid learning due to the pandemic. These additional revenues were allocated after adoption of the 2020-21 budget.
- Budgeted expenditures between the original and final general fund budgets increased by approximately \$6.0 million. The net change represented in a decrease in certain areas due to the pandemic and distance learning (utility charges, substitutes, crossing guards, etc) and increases using COVID funding for purchases such as technology, online learning platforms, and personal protective equipment.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2021, the District had \$259.3 million in a broad range of capital assets (net of depreciation), including land, buildings, furniture, and equipment. This represents a stable amount (including additions, deductions, and depreciation) in comparison to last year (Table 5).

Table 5

	Governmental Activities	
	2021	2020
Land and construction in progress	\$ 34,854,898	\$ 72,597,069
Buildings and improvements	221,480,150	183,625,083
Equipment	2,996,454	3,136,592
Total	\$ 259,331,502	\$ 259,358,744

This year’s additions of \$12.7 million included replacement of older elementary portable classrooms with modern modular classrooms, installation of new classrooms at the Adult Education campus, and additional campus upgrades throughout the district.

Several capital projects are planned for the 2021-2022 year. We anticipate capital additions to be \$30 million for the 2021-2022 year. We present more detailed information about our capital assets in Note 5 to the financial statements.

Long-Term Liabilities

At the end of this year, the District had \$486.4 million in long-term obligations outstanding versus \$482.1 million last year, an increase of 0.8 percent. Those long-term obligations consisted of:

Table 6

	Governmental Activities	
	2021	2020
Long-Term Liabilities		
General obligation bonds	\$ 316,756,547	\$ 327,835,208
Unamortized premiums/(discounts)	29,830,791	26,411,023
Capital leases	474,020	549,092
Compensated absences	734,718	566,439
Total OPEB liability	10,844,718	10,556,773
Aggregate net pension liability	127,768,195	116,181,192
 Total	 \$ 486,408,989	 \$ 482,099,727

The District's general obligation bond rating continues to be AA. The State limits the amount of general obligation debt that districts can issue to five percent of the assessed value of all taxable property within the District's boundaries. The District's outstanding general obligation debt of \$316.8 million is significantly below this statutorily-imposed limit.

At year-end, the District has a net pension liability of \$127.8 million versus \$116.2 million last year, an increase of \$11.6 million, or 10.0 percent.

Other liabilities include compensated absences payable, other postemployment benefits (OPEB) liability (not including health benefits) and other long-term liabilities. We present more detailed information regarding our long-term liabilities in Note 9 of the financial statements.

SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2020-2021 ARE NOTED BELOW:

Continued the school modernization projects which includes renovating various sites, upgrades and replacement of portables and the expansion of advance technology hardware and software, accommodating distance learning, and extensive planning for the construction of a new gymnasium and continuation school campus.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

In considering the District Budget for the 2021-2022 year, the governing board and management used the following criteria:

Revenue Assumptions:

- 5.07% COLA in 2021-22, 2.48% in 2022-23, and 3.11% in 2023-24
- A reduction of about 375 students from 2019-20 due to the impact of COVID
- No cuts to categorical programs
- STRS rates increasing from 16.15% to 16.92%, and PERS rates increasing from 20.70% to 22.91%
- Approximately \$8 million in COVID expenditures from state and federal COVID funding

Expenditures are based on the following forecasts:

	Staffing Ratio	Enrollment
Grades kindergarten through third	24:1	2,852
Grades four through eight	30:1	3,334
Grades nine through twelve	30:1	2,880

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Assistant Superintendent, Business Services, at San Leandro Unified School District, 835 East 14th Street, Suite 200, San Leandro, California, 94577, or e-mail at kcollins@slusd.us.

San Leandro Unified School District
 Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental
 Funds to the Statement of Activities
 Year Ended June 30, 2021

Total Net Change in Fund Balances - Governmental Funds \$ (394,519)

Amounts Reported for Governmental Activities in the Statement of
 Activities are Different Because

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.

This is the amount by which depreciation exceeds capital outlays in the period.

Depreciation expense	\$ (12,738,442)	
Capital outlays	<u>12,711,200</u>	
Net expense adjustment		(27,242)

Some of the capital assets acquired this year were financed with capital leases. The amount financed by the leases is reported in the governmental funds as a source of financing. On the other hand, the capital leases are not revenues in the Statement of Activities, but rather constitute long-term liabilities in the Statement of Net Position. (11,966)

In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This amount is the difference between vacation earned and used. (168,279)

In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the Statement of Activities, pension expenses are the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year. (4,624,002)

In the governmental funds, OPEB costs are based on employer contributions made to OPEB plans during the year. However, in the Statement of Activities, OPEB expense is the net effect of all changes in the deferred outflows, deferred inflows, and total OPEB liability during the year. (270,431)

Proceeds received from certificates of participation is a revenue in the governmental funds, but it increases long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities. \$ (27,685,000)

San Leandro Unified School District
 Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental
 Funds to the Statement of Activities
 Year Ended June 30, 2021

Governmental funds report the effect of premiums, discounts, and the deferred charge on refunding when the debt is first issued, whereas the amounts are deferred and amortized in the Statement of Activities.

Premium on issuance recognized	(5,347,703)
Premium amortization	1,927,935

Payment of principal on long-term liabilities is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.

General obligation bonds	38,763,661
Capital leases	87,038

Interest on long-term liabilities is recorded as an expenditure in the funds when it is due; however, in the Statement of Activities, interest expense is recognized as the interest accretes or accrues, regardless of when it is due.

Note 1 - Summary of Significant Accounting Policies

Financial Reporting Entity

The San Leandro Unified School District (the District) was organized on July 1, 1952, under the laws of the State of California. The District operates under a locally elected seven-member Board form of government and provides educational services to grades K-12 as mandated by the State and Federal agencies. The District operates eight elementary schools, two middle schools, one comprehensive high school, one continuation school, one adult school and an independent study center.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For San Leandro Unified School District, this includes general operations, food service, and student related activities of the District.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds: Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues that are restricted or committed for adult education programs and is to be expended for adult education purposes only.

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (Education Code Sections 15125-15262).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are used to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

- **Student Activity Fund** The Student Activity Fund is used to account separately for the operating activities of the associated student body accounts that are not fiduciary in nature, including student clubs, general operations, athletics, and other student body activities.
- **Cafeteria Fund** The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Capital Project Funds The Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

- **Capital Facilities Fund** The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approval (*Education Code* Sections 17620-17626 and Government Code Section 65995 et seq.). Expenditures are restricted to the purposes specified in Government Code Sections 65970-65981 or to the items specified in agreements with the developer (Government Code Section 66006).
- **Special Reserve Fund for Capital Outlay Projects** The Special Reserve Fund for Capital Outlay Projects exists primarily to provide for the accumulation of General Fund monies for capital outlay purposes (*Education Code* Section 42840).

Proprietary Funds Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the local education agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service. The District has the following proprietary funds:

- **Internal Service Fund** Internal Service funds may be used to account for goods or services provided to other funds of the District on a cost-reimbursement basis. The District operates a self insurance fund that is accounted for in an internal service fund.

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, of the District and for each governmental function, and exclude fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the *Statement of Activities*, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

- **Governmental Funds** All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

- **Proprietary Funds** Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.
- **Fiduciary Funds** Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District. The District does not currently have any fiduciary funds.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. The District considers revenues to be available if they are collected within one year after year-end, except for property taxes, which are considered available if collected within 60 days. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue Unearned revenues arise when resources are received by the District before it has a legal claim to them, such as when certain grants are received prior to the occurrence of qualifying expenditures. In the subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and the revenue is recognized.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred. Principal and interest on long-term liabilities, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Restricted Assets

Restricted assets arise when restrictions on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets in the Debt Service Fund represent investments required by debt covenants to be set aside by the District for the purpose of satisfying certain requirements of the bonded debt issuances.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental funds and expenses in the proprietary funds when consumed rather than when purchased.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at acquisition value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements/infrastructure, 5 to 50 years; equipment, 2 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental columns of the statement of net position.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Liabilities

All payables, accrued liabilities, and long-term liabilities are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as liabilities of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term liabilities are recognized as liabilities in the governmental fund financial statements when due.

Debt Issuance Costs, Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term liabilities are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method, which approximates the effective interest method.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the period the bonds are issued. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures in the period the bonds are issued.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for deferred charges on refunding of debt, for pension related items, and for OPEB related items. The deferred charge on refunding resulted from the difference between the carrying value of the refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred amounts related to pension and OPEB relate to differences between expected and actual earnings on investments, changes of assumptions, and other pension and OPEB related changes.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for deferred charges on refunding of debt, for pension related items, and for OPEB related items.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value. The net pension liability attributable to the governmental activities will be paid by the fund in which the employee worked.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District Plan and additions to/deductions from the District Plan fiduciary net position have been determined on the same basis as they are reported by the District Plan. For this purpose, the District Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund.

Fund Balances - Governmental Funds

As of June 30, 2021, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board. The District currently does not have any committed funds.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the district against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net position net of investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report \$38,760,756 of restricted net position restricted by enabling legislation.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are in-district premiums. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Interfund Activity

Transfers between governmental and business-type activities in the government-wide financial statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental and business-type activities columns of the Statement of Activities, except for the net residual amounts transferred between governmental and business-type activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Alameda bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

Change in Accounting Principles

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The provisions of this Statement have been implemented as of June 30, 2021.

In August 2018, the GASB issued Statement 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 60*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The provisions of this Statement have been implemented as of June 30, 2021.

In March 2020, the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR (Interbank Offered Rate). This Statement achieves that objective by:

- Providing exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable payment

- Clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate
- Clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable
- Removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap
- Identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap
- Clarifying the definition of reference rate, as it is used in Statement 53, as amended
- Providing an exception to the lease modifications guidance in Statement 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend.

The provisions of this Statement have been implemented as of June 30, 2021, except for the following, which are not applicable until a later date as noted: the removal of LIBOR as an appropriate benchmark interest rate (paragraph 11b) is effective for reporting periods ending after December 31, 2021. Paragraph 13 and 14 related to lease modifications is effective for reporting periods beginning after June 15, 2021. The effects of these changes on the District's financial statements have not yet been determined.

In June 2020, the GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, have been implemented as of June 30, 2021.

The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021. For purposes of determining whether a primary government is financially accountable for a potential component unit, the requirements of this Statement that provide that for all other arrangements, the absence of a governing board be treated the same as the

appointment of a voting majority of a governing board if the primary government performs the duties that a governing board typically would perform, are effective for reporting periods beginning after June 15, 2021. Earlier application of those requirements is encouraged and permitted by requirement as specified within this Statement. The effects of this change on the District's financial statements have not yet been determined.

New Accounting Pronouncements

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after June 15, 2021. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged. The requirements of this Statement should be applied prospectively. The effects of this change on the District's financial statements have not yet been determined.

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures.

This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. In those arrangements, capital assets are constructed or acquired with the proceeds of a conduit debt obligation and used by third-party obligors in the course of their activities. Payments from third-party obligors are intended to cover and coincide with debt service payments. During those arrangements, issuers retain the titles to the capital assets. Those titles may or may not pass to the obligors at the end of the arrangements.

This Statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

The requirements of this Statement are effective for the reporting periods beginning after December 15, 2021. Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In January 2020, the GASB issued Statement No. 92, *Omnibus 2020*. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about the following:

- The effective date of Statement No. 87, Leases, and Implementation Guide No. 2019-3, Leases, for interim financial reporting
- Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefit (OPEB) plan
- The applicability of Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, as amended, and No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, to reporting assets accumulated for postemployment benefits
- The applicability of certain requirements of Statement No. 84, Fiduciary Activities, to postemployment benefit arrangements
- Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition

- Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers
- Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature
- Terminology used to refer to derivative instruments

The requirements of this Statement are effective as follows:

- The requirements related to the effective date of Statement 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance.
- The requirements related to intra-entity transfers of assets and those related to the applicability of Statements 73 and 74 are effective for fiscal years beginning after June 15, 2021.
- The requirements related to application of Statement 84 to postemployment benefit arrangements and those related to nonrecurring fair value measurements of assets or liabilities are effective for reporting periods beginning after June 15, 2021.
- The requirements related to the measurement of liabilities (and assets, if any) associated with AROs in a government acquisition are effective for government acquisitions occurring in reporting periods beginning after June 15, 2021.

Early implementation is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The effects of this change on the District's financial statements have not yet been determined.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended.

A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The effects of this change on the District's financial statements have not yet been determined.

Note 2 - Deposits and Investments

Summary of Deposits and Investments

Deposits and investments as of June 30, 2021, are classified in the accompanying financial statements as follows:

Governmental funds	\$ 141,281,566
Proprietary funds	<u>217,462</u>
Total deposits and investments	<u><u>\$ 141,499,028</u></u>

Deposits and investments as of June 30, 2021, consist of the following:

Cash on hand and in banks	\$ 579,639
Cash in revolving	40,000
Investments	<u>140,879,389</u>
Total deposits and investments	<u><u>\$ 141,499,028</u></u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Pool.

Weighted Average Maturity

The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. Information about the weighted average maturity of the District's portfolio is presented in the following schedule:

<u>Investment Type</u>	<u>Reported Amount</u>	<u>Weighted Average Maturity in Years</u>
County Investment Pool	<u>\$ 140,879,389</u>	593 days

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in the County Pool is not required to be rated, nor has it been rated as of June 30, 2021.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2021, approximately \$70,000 of the District's bank balance of \$600,000 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

Note 3 - Fair Value Measurements

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

- Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.
- Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.
- Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Alameda County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements are as follows at June 30, 2021:

Investment Type	Reported Amount	Minimum Legal Rating	Rating as of Year End		
			AAA	AA	Unrated
County Investment Pool	\$ 140,879,389	N/A	\$ -	\$ -	\$ 140,879,389

N/A - Not applicable

Note 4 - Receivables

Receivables at June 30, 2021, consisted of intergovernmental grants, entitlements, interest and other local sources. All receivables are considered collectible in full.

	General Fund	Adult Fund	Building Fund	Bond Interest and Redemption Fund	Non-Major Govemental Funds	Total	Proprietary Funds
Federal Government							
Categorical aid	\$ 15,758	\$ -	\$ -	\$ -	\$ -	\$ 15,758	\$ -
State Government							
LCFF apportionment	13,949,007	-	-	-	-	13,949,007	-
Categorical aid	378,432	229,674	-	-	890,621	1,498,727	-
Lottery	595,335	-	-	-	-	595,335	-
Local Government							
Interest	-	-	-	-	-	-	430
Other local sources	6,466,745	650	163,300	58,000	5,200	6,693,895	-
Total	\$21,405,277	\$ 230,324	\$ 163,300	\$ 58,000	\$ 895,821	\$22,752,722	\$ 430

Note 5 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2021, was as follows:

	Balance July 1, 2020	Additions	Deductions	Balance June 30, 2021
Governmental Activities				
Capital assets not being depreciated				
Land	\$ 14,369,105	\$ -	\$ -	\$ 14,369,105
Construction in progress	58,227,964	5,212,728	(42,954,899)	20,485,793
Total capital assets not being depreciated	72,597,069	5,212,728	(42,954,899)	34,854,898
Capital assets being depreciated				
Land improvements	25,058,245	467,931	-	25,526,176
Buildings and improvements	304,139,214	49,762,111	-	353,901,325
Furniture and equipment	12,634,740	223,329	-	12,858,069
Total capital assets being depreciated	341,832,199	50,453,371	-	392,285,570
Total capital assets	414,429,268	55,666,099	(42,954,899)	427,140,468
Accumulated depreciation				
Land improvements	(16,440,937)	(761,193)	-	(17,202,130)
Buildings and improvements	(129,131,439)	(11,613,782)	-	(140,745,221)
Furniture and equipment	(9,498,148)	(363,467)	-	(9,861,615)
Total accumulated depreciation	(155,070,524)	(12,738,442)	-	(167,808,966)
Governmental activities capital assets, net	\$ 259,358,744	\$ 42,927,657	\$ (42,954,899)	\$ 259,331,502

Depreciation expense was charged as a direct expense to governmental functions as follows:

Governmental Activities	
Instruction	\$ 8,178,959
Supervision of instruction	397,597
Instructional library, media, and technology	626,379
School site administration	729,163
Home-to-school transportation	182,848
Food services	345,789
All other pupil services	541,082
Ancillary Services	48,275
Data processing	68,764
All other administration	559,319
Plant services	<u>1,060,267</u>
 Total depreciation expenses governmental activities	 <u><u>\$ 12,738,442</u></u>

Note 6 - Interfund Transactions

Interfund Receivables/Payables (Due To/Due From)

Interfund receivable and payable balances arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Interfund receivable and payable balances at June 30, 2021, between major and non-major governmental funds, non-major enterprise funds, internal service funds, and fiduciary funds are as follows:

Due To	Due From		
	General Fund	Adult Education Fund	Total
General Fund	\$ -	\$ 110,935	\$ 110,935
Adult Education Fund	66,040		66,040
Building Fund	-	408,833	408,833
Non-Major Governmental Funds	<u>158,827</u>	<u>-</u>	<u>158,827</u>
 Total	 <u><u>\$ 224,867</u></u>	 <u><u>\$ 519,768</u></u>	 <u><u>\$ 744,635</u></u>

All remaining balance resulted from the time lag between the date that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transaction are recorded in the accounting system, and (3) payments between funds are made.

Operating Transfers

Interfund transfers for the year ended June 30, 2021, consisted of the following:

Transfer To	Transfer From	
	Adult Education Fund	Total
General Fund	\$ 110,935	\$ 110,935
Total	\$ 110,935	\$ 110,935

The General Fund transferred to the Adult Education Fund to transfer lottery funds	\$ 110,935
Total	\$ 110,935

Interfund transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note 7 - Accounts Payable

Accounts payable at June 30, 2021, consisted of the following:

	General Fund	Adult Education Fund	Building Fund	Non-Major Governmental Funds	Total
Vendor payables	\$ 963,816	\$ 118,659	\$ 926,638	\$ 8,851	\$ 2,017,964
Salaries and benefits	3,829,231	-	-	33,783	3,863,014
Total	\$ 4,793,047	\$ 118,659	\$ 926,638	\$ 42,634	\$ 5,880,978

Current Loans

The District issued \$10,000,000 of Tax and Revenue Anticipation Notes dated March 29, 2021. The notes mature on January 28, 2022 and yield 2.48 percent interest. The notes were sold to supplement cash flow. Repayment requirements are that a percentage of principal and interest be deposited with the Fiscal Agent each month beginning July 20, 2021, until 100 percent of principal and interest due is on account on November 20, 2021.

Note 8 - Unearned Revenue

Unearned revenue at June 30, 2021, consisted of the following:

	General Fund	Adult Education Fund	Total
	<u> </u>	<u> </u>	<u> </u>
State categorical aid	\$ -	\$ 434,161	\$ 434,161
Other local	1,565,478	-	1,565,478
	<u> </u>	<u> </u>	<u> </u>
Total	<u>\$ 1,565,478</u>	<u>\$ 434,161</u>	<u>\$ 1,999,639</u>

Note 9 - Long-Term Liabilities Other than OPEB and Pensions

Summary

The changes in the District's long-term liabilities other than OPEB and pensions during the year consisted of the following:

	Balance July 1, 2020	Additions	Deductions	Balance June 30, 2021	Due in One Year
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Long-Term Liabilities					
General obligation bonds	\$ 327,835,208	\$ 27,685,000	\$ (38,763,661)	\$ 316,756,547	\$ 16,890,088
Unamortized debt premiums	26,411,023	5,347,703	(1,927,935)	29,830,791	1,927,935
Capital leases	549,092	11,966	(87,038)	474,020	93,425
Compensated absences	566,439	168,279	-	734,718	-
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total	<u>\$ 355,361,762</u>	<u>\$ 33,212,948</u>	<u>\$ (40,778,634)</u>	<u>\$ 347,796,076</u>	<u>\$ 18,911,448</u>

Payments on the general obligation bonds are made by the Bond Interest and Redemption Fund with local revenues. The Capital Facilities Fund makes payments for the Notes Payable. The capital leases payments are made by the Adult Education Fund. The accrued compensation will be paid by the fund for which the employee worked.

General Obligation Bonds

The outstanding general obligation bonded debt is as follows:

Issuance Date	Final Maturity Date	Interest Rate	Original Issue	Bonds Outstanding July 1, 2020	Issued	Redeemed	Bonds Outstanding June 30, 2021
2/13/2010	8/1/2040	6.38-6.98%	19,999,043	\$ 12,980,063	\$ -	\$ -	\$ 12,980,063
5/1/2010	2/1/2026	5%	18,327,344	10,360,145	-	(1,543,661)	8,816,484
5/24/2011	8/1/2041	3.00-5.75%	30,000,000	28,800,000	-	(28,575,000)	225,000
10/19/2011	8/1/2022	2.00-3.125%	7,560,000	2,395,000	-	(745,000)	1,650,000
7/10/2013	8/1/2026	0.55-4.00%	11,670,000	8,220,000	-	(930,000)	7,290,000
7/10/2013	8/1/2038	3.00-5.00%	20,100,000	19,145,000	-	(420,000)	18,725,000
3/24/2015	8/1/2029	3.00-5.00%	11,745,000	11,745,000	-	-	11,745,000
5/21/2015	8/1/2033	2.00-5.00%	31,275,000	29,860,000	-	(770,000)	29,090,000
11/2/2016	8/1/2031	2.00-5.00%	17,900,000	16,870,000	-	(575,000)	16,295,000
5/2/2017	8/1/2046	3.00-5.00%	47,260,000	39,860,000	-	(2,355,000)	37,505,000
5/2/2017	8/1/2028	2.00-5.00%	23,675,000	19,115,000	-	(2,450,000)	16,665,000
2/5/2019	8/1/2043	3.00-5.00%	50,240,000	50,240,000	-	-	50,240,000
2/5/2019	8/1/2043	4.00-5.00%	3,250,000	3,250,000	-	(400,000)	2,850,000
3/3/2020	8/1/2043	3.00-4.00%	74,995,000	74,995,000	-	-	74,995,000
4/14/2021	8/1/2026	2%	3,250,000	-	3,250,000	-	3,250,000
4/14/2021	8/1/2035	4%	24,435,000	-	24,435,000	-	24,435,000
				<u>\$ 327,835,208</u>	<u>\$ 27,685,000</u>	<u>\$ (38,763,661)</u>	<u>\$ 316,756,547</u>

Debt Service Requirements to Maturity

The bonds mature through 2047 as follows:

Bonds Maturing Fiscal Year	Principal	Interest to Maturity	Total
2022	\$ 16,890,088	\$ 12,487,216	\$ 29,377,304
2023	16,134,482	12,103,497	28,237,979
2024	17,012,077	11,426,541	28,438,618
2025	13,442,816	10,757,018	24,199,834
2026	14,267,021	10,156,123	24,423,144
2027-2031	55,750,000	55,583,331	111,333,331
2032-2036	68,610,000	44,218,850	112,828,850
2037-2041	65,280,063	49,884,212	115,164,275
2042-2046	45,710,000	4,761,216	50,471,216
2047	3,660,000	88,100	3,748,100
Total	<u>\$ 316,756,547</u>	<u>\$ 211,466,104</u>	<u>\$ 528,222,651</u>

Compensated absences (unpaid employee vacation) for the District at June 30, 2021, amounted to \$734,718.

Capital Leases

The District has entered into agreements to lease various facilities and equipment. Such agreements are, in substance, purchases (capital leases) and are reported as capital lease obligations. The District's liability on lease agreements with options to purchase is summarized below:

	Adult Education Zion Bank
Balance, July 1, 2020	\$ 549,092
Additions	11,966
Payments	(87,038)
Balance, July 1, 2021	\$ 474,020

The capital leases have minimum lease payments as follows:

Year Ending June 30,	Lease Payment
2022	\$ 95,824
2023	95,824
2024	95,824
2025	95,824
2026	95,824
Total	479,120
Less amount representing interest	(5,100)
Present value of minimum lease payments	\$ 474,020

Leased land, buildings, and equipment under capital leases in capital assets at June 30, 2021, include the following:

Buildings		\$	1,530,197
Less accumulated depreciation			<u>(308,590)</u>
Total			<u>\$ 1,221,607</u>

Amortization of leased buildings and equipment under capital assets is included with depreciation expense.

Note 10 - Total Other Postemployment Benefit (OPEB) Liability

For the fiscal year ended June 30, 2021, the District reported total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense for the following plans:

OPEB Plan	Total OPEB Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	OPEB Expense
Retiree Health Plan	<u>\$ 10,844,718</u>	<u>\$ 602,213</u>	<u>\$ -</u>	<u>\$ 790,932</u>

The details of each plan are as follows:

District Plan

Plan Administration

The District’s governing board administers the Postemployment Benefits Plan (the Plan). The Plan is a single employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for eligible retirees and their spouses. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Plan Membership

At June 30, 2020, the measurement date, the Plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefits payments	245
Inactive employees entitled to but not yet receiving benefits payments	-
Active employees	<u>9</u>
Total	<u>254</u>

Benefits Provided

The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the Plan. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

Contributions

The benefit payment requirements of the Plan members and the District are established and may be amended by the District, the Teacher Education Association (TEA), the local California Service Employees Association (CSEA), and unrepresented groups. The benefit payment is based on projected pay-as-you-go financing requirements as determined annually through the agreements with the District, TEA, CSEA, and the unrepresented groups. For the fiscal year ended June 30, 2021 the District paid \$584,699 in benefits.

Total OPEB Liability of the District

The District's total OPEB liability of \$10,844,718 was measured as of June 30, 2020, and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation as of June 30, 2021

Actuarial Assumptions

The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	1.96 percent
Discount rate	0.92 percent
Healthcare cost trend rates	7.00 percent for 2021

The discount rate was based on the Bond Buyer 20-bond General Obligation Index.

Mortality rates were based on the 1984 Unisex Mortality Table. Mortality rates vary by age and sex. If employees die prior to retirement, past contributions are available to fund benefits for employees who live to retirement. After retirement, death results in benefit termination or reeducation. Although higher mortality rates reduce service costs, the mortality assumption is not likely to vary from employer to employer.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actual experience study for the period July 1, 2019 to June 30, 2020.

Changes in the Total OPEB Liability

	Total OPEB Liability
Balance, June 30, 2020	\$ 10,556,773
Service cost	1,202
Interest	12,401
Differences between expected and actual experience	(452,688)
Changes of assumptions or other inputs	1,332,482
Benefit payments	(605,452)
Net change in total OPEB liability	287,945
Balance, June 30, 2021	\$ 10,844,718

Changes of assumptions and other inputs reflect a change in the discount rate from 1.96 percent in 2020 to 0.92 percent in 2021.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Total OPEB Liability
1% decrease (0.96%)	\$ 16,377,737
Current discount rate (1.96%)	10,844,718
1% increase (2.96%)	5,311,699

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percent lower or higher than the current healthcare costs trend rates:

Healthcare Cost Trend Rates	Total OPEB Liability
1% decrease (6%)	\$ 9,295,473
Current healthcare cost trend rate (7%)	10,844,718
1% increase (8%)	12,393,963

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of \$790,932. At June 30, 2021, the District reported deferred outflows of resources for the amount paid by the District for OPEB as the benefits come due subsequent to measurement date of \$602,213.

Note 11 - Fund Balances

Fund balance are composed of the following elements:

	General Fund	Adult Education Fund	Building Fund	Bond Interest and Redemption Fund	Non-Major Governmental Funds	Total
Nonspendable						
Revolving cash	\$ 40,000	\$ -	\$ -	\$ -	\$ -	\$ 40,000
Stores inventories	-	-	-	-	52,343	52,343
Total nonspendable	40,000	-	-	-	52,343	92,343
Restricted						
Legally restricted programs	10,994,847	-	-	-	-	10,994,847
Food service	-	-	-	-	4,551,844	4,551,844
Capital projects	-	-	78,448,390	-	3,156,314	81,604,704
Debt services	-	-	-	27,205,712	-	27,205,712
Total restricted	10,994,847	-	78,448,390	27,205,712	7,708,158	124,357,107
Assigned						
Other	-	1,962,889	-	-	-	1,962,889
Unassigned						
Reserve for economic uncertainties	3,531,661	-	-	-	-	3,531,661
Remaining unassigned	12,828,989	-	-	-	-	12,828,989
Total unassigned	16,360,650	-	-	-	-	16,360,650
Total	\$ 27,395,497	\$ 1,962,889	\$ 78,448,390	\$ 27,205,712	\$ 7,760,501	\$ 142,772,989

Note 12 - Lease Revenues

The District has property held for lease. Lease agreements have been entered into with various lessees for terms that exceed one year. None of the agreements contain purchase options. All of the agreements contain a termination clause providing for cancellation after a specified number of days written notice to lessors, but is unlikely that the District will cancel any of the agreements prior to their expiration date. The future minimum lease payments expected to be received under these agreements are as \$36,000 per year for each of the next five years and \$144,000 thereafter.

Note 13 - Risk Management

The District is exposed to various risks of loss related to torts; theft, damage and destruction of assets; errors and omissions; injuries to employees; life and health of employees; and natural disasters.

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2021, the District contracted with East Bay Schools Insurance Group (EBSIG) for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2021, the District participated in the Alameda County Schools Insurance Group (ACSIG), an insurance purchasing pool. The intent of ACSIG is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in ACSIG. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in ACSIG. Each participant pays its workers' compensation premium based on its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of each participating district. A participant will then either receive money from or be required to contribute to the "equity-pooling fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of ACSIG. Participation in ACSIG is limited to districts that can meet the ACSIG selection criteria.

Note 14 - Employee Retirement Systems

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2021, the District reported its proportionate share of net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

<u>Pension Plan</u>	<u>Net Pension Liability</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Pension Expense</u>
CalSTRS	\$ 95,999,949	\$ 45,970,675	\$ 2,998,694	\$ 20,785,500
CalPERS	31,768,246	4,826,033	585,412	- 6,947,045
Total	<u>\$ 127,768,195</u>	<u>\$ 50,796,708</u>	<u>\$ 3,584,106</u>	<u>\$ 13,838,455</u>

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2019, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <http://www.calstrs.com/member-publications>.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2021, are summarized as follows:

	STRP Defined Benefit Program	
	On or before December 31, 2012	On or after January 1, 2013
Hire date	2% at 60	2% at 62
Benefit formula	5 years of service	5 years of service
Benefit vesting schedule	Monthly for life	Monthly for life
Benefit payments	60	62
Retirement age	2.0% - 2.4%	2.0% - 2.4%
Monthly benefits as a percentage of eligible compensation	10.25%	10.205%
Required employee contribution rate	16.15	16.15
Required employer contribution rate	10.328%	10.328%
Required state contribution rate		

Contributions

Required member, District and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2021, are presented above and the District's total contributions were \$6,810,092.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

Total net pension liability, including State share	
Proportionate share of net pension liability	\$ 95,999,949
State's proportionate share of the net pension liability	49,487,985
Total	\$ 145,487,934

The net pension liability was measured as of June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2020 and June 30, 2019, respectively was 0.0991 percent and 0.0957 percent, resulting in a net increase in the proportionate share of 0.0034 percent.

For the year ended June 30, 2021, the District recognized pension expense of \$20,785,500. In addition, the District recognized pension expense and revenue of \$6,932,781 for support provided by the State. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 6,810,092	\$ -
Change in proportion and differences between contributions made and District's proportionate share of contributions	27,349,427	291,331
Differences between projected and actual earnings on pension plan investments	2,280,406	-
Differences between expected and actual experience in the measurement of the total pension liability	169,396	2,707,363
Changes of assumptions	9,361,354	-
Total	\$ 45,970,675	\$ 2,998,694

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ (1,391,491)
2023	776,976
2024	1,550,155
2025	1,344,766
Total	\$ 2,280,406

The deferred outflows/(inflows) of resources related to the change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is seven years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ 10,348,022
2023	10,827,572
2024	10,997,961
2025	764,707
2026	598,181
Thereafter	345,040
Total	<u>\$ 33,881,483</u>

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Experience study	July 1, 2015 through June 30, 2018
Actuarial cost method	Entry age normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2020, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Public equity	42%	4.8%
Fixed income	15%	1.3%
Real estate	13%	3.6%
Private equity	12%	6.3%
Risk mitigating strategies	10%	1.8%
Inflation sensitive	6%	3.3%
Cash/liquidity	2%	-0.4%

Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.10%)	\$ 145,042,550
Current discount rate (7.10%)	95,999,949
1% increase (8.10%)	55,508,375

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2019 annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/forms-publications>.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2021, are summarized as follows:

	<u>School Employer Pool (CalPERS)</u>	
	On or before December 31, 2012	On or after January 1, 2013
Hire date		
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.00%	7.00%
Required employer contribution rate	20.700%	20.700%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for the plan for the year ended June 30, 2021, is presented above and the total District contributions were \$2,404,361.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2021, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$31,768,246. The net pension liability was measured as of June 30, 2020. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2020 and June 30, 2019, respectively was 0.1035 percent and 0.1020 percent, resulting in a net increase in the proportionate share of 0.0015 percent.

For the year ended June 30, 2021, the District recognized pension expense of \$6,947,045. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 2,404,361	\$ -
Change in proportion and differences between contributions made and District's proportionate share of contributions	68,255	585,412
Differences between projected and actual earnings on pension plan investments	661,314	-
Differences between expected and actual experience in the measurement of the total pension liability	1,575,608	-
Changes of assumptions	116,495	-
	<u>\$ 4,826,033</u>	<u>\$ 585,412</u>
Total	<u>\$ 4,826,033</u>	<u>\$ 585,412</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ (247,478)
2023	220,741
2024	383,685
2025	304,366
Total	<u>\$ 661,314</u>

The deferred outflows/(inflows) of resources related to the change in proportion and differences between contributions made and District's proportionate share of contributions, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 4.1 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2022	\$ 774,495
2023	374,376
2024	27,210
2025	(1,135)
Total	<u>\$ 1,174,946</u>

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2019, and rolling forward the total pension liability to June 30, 2020. The financial reporting actuarial valuation as of June 30, 2019, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Experience study	July 1, 1997 through June 30, 2015
Actuarial cost method	Entry age normal
Discount rate	7.15%
Investment rate of return	7.15%
Consumer price inflation	2.50%
Wage growth	Varies by entry age and service

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90 percent of scale MP-2016.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	50%	5.98%
Fixed income	28%	2.62%
Inflation assets	0%	1.81%
Private equity	8%	7.23%
Real assets	13%	4.93%
Liquidity	1%	-0.92%

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

<u>Discount Rate</u>	<u>Net Pension Liability</u>
1% decrease (6.15%)	\$ 45,672,647
Current discount rate (7.15%)	31,768,246
1% increase (8.15%)	20,228,292

Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use Social Security as its alternative plan. Contributions made by the District and an employee vest immediately. The District contributes 6.2 percent of an employee's gross earnings. An employee is required to contribute 6.2 percent of his or her gross earnings to the pension plan.

The District also contributes to the San Leandro District 403(b) Tax Deferred Annuity Plan (TDA), which is a defined contribution pension plan. A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investments of those contributions, and forfeitures of other participants' benefits that may be allocated to such participant's account.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$5,600,556 (10.328 percent of annual payroll). Contributions are no longer appropriated in the annual Budget Act for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been included in the calculation of available reserves, and included in the budgeted amounts reported in the General Fund - Budgetary Comparison Schedule.

Note 15 - Commitments and Contingencies**Grants**

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2021.

Litigation

The District is not currently a party to any legal proceedings.

Construction Commitments

As of June 30, 2021, the District had the following commitments with respect to the unfinished capital projects:

Capital Project	Remaining Construction Commitment	Expected Date of Completion
Modernization at various sites		
Bancroft Modulares	\$ 3,500,000	September-22
Bancroft Field and Drop Off	5,500,000	September-22
Lincoln Campus	19,500,000	December-24
Muir Modulares	10,500,000	September-22
Roosevelt Drop Off and Entry	900,000	January-22
San Leandro High School Gymnasium	52,000,000	October-24
Washington Modulares	1,000,000	August-21
	<u> </u>	
Total	<u><u>\$ 92,900,000</u></u>	

Note 16 - Participation in Public Entity Risk Pools, Joint Powers Authorities and Other Related Party Transactions

The District is a member of the East Bay Schools Insurance Group and Alameda County Schools Insurance Group public entity risk pools and the Eden Area Regional Occupational Program and the School Project for Utility Rate Reduction joint powers authorities (JPA's). The District pays an annual premium to the applicable entity for its workers' compensation, and property liability coverage. Payments for regional occupational programs and utilities are paid to the JPAs. The relationships between the District, the pools, and the JPA's are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

During the year ended June 30, 2021, the District made payments of \$808,285 to East Bay Schools Insurance Group, \$2,095,708 to Alameda County Schools Insurance Group, \$121,580 to School Project for Utility Rate public entity risk pool, and \$1,252,649 to the Eden Area Regional Occupational Program for occupational programs.

Note 17 - Restatement of Prior Year Net Position and Fund Balance

As of June 30, 2021, the San Leandro Unified School District adopted GASB Statement No. 84, *Fiduciary Activities* (GASB 84). As a result of the implementation of GASB 84, the District has reclassified its associated student body activity previously reported as fiduciary funds to a governmental fund – Student Activity Fund. The following table describes the effects of the implementation on beginning fund balance/net position.

Government-Wide Financial Statements	
Net Position - Beginning	\$ (43,654,205)
Reclassified student body funds from fiduciary to a special revenue fund	520,152
Net Position - Beginning as Restated	\$ (43,134,053)
Nonmajor Funds	
Fund Balance - Beginning	\$ 4,917,597
Reclassified student body funds from fiduciary to a special revenue fund	520,152
Fund Balance - Beginning as Restated	\$ 5,437,749
Student Activity Fund	
Fund Balance - Beginning	\$ -
Reclassified student body funds from fiduciary to a special revenue fund	520,152
Fund Balance - Beginning as Restated	\$ 520,152

Note 1 - Purpose of Schedules

Budgetary Comparison Schedules

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United State of America as prescribed by the Governmental Accounting Standards Board and provisions of the California *Education Code*. The governing board is required to hold a public hearing and adopt an operating budget no later than July 1 of each year. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

These schedules present information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

Schedule of Changes in the District's Total OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the total OPEB liability, including beginning and ending balances, the plan's fiduciary net position, and the total OPEB liability. In the future, as data becomes available, ten years of information will be presented.

- *Changes in Benefit Terms* – There were no changes in benefit terms since the previous valuation.
- *Changes of Assumptions*— The discount rate changed from 1.96 to 0.92 since previous valuation.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

- *Changes in Benefit Terms* – There were no changes in benefit terms since the previous valuations for both CalSTRS and CalPERS.
- *Changes of Assumptions* – There were no changes in economic assumptions for either the CalSTRS or CalPERS plans from the previous valuations.

Schedule of District Contributions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

K-12 Average Daily Attendance at P-2	<u>8,613</u>	<u>8,613</u>	<u>8,608</u>	<u>8,490</u>

The General Fund balance has increased by \$16,654,324 over the past two years. The fiscal year 2021-2022 budget projects a further increase of \$5,577,612 (20.4 percent). For a district this size, the State recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surpluses in all of the past three years and anticipates incurring an operating deficit during the 2021-2022 fiscal year. Total long-term liabilities have increased by \$63,583,066 over the past two years.

Average daily attendance has increased by 123 over the past two years. No additional growth is anticipated during fiscal year 2021-2022.

¹ Budget 2022 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund

³ On behalf payments of have been included in the calculation of available reserves for the fiscal years ending June 30, 2021, 2020, and 2019.

Note 1 - Purpose of Schedules

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance. No Federal financial assistance has been provided to a subrecipient.

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Instructional Time

This schedule presents information on the number of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Section 43504.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Schedule of Charter Schools

This schedule lists all Charter Schools chartered by the District and displays information for each Charter School on whether or not the Charter School is included in the School District audit.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

Independent Auditor's Reports
June 30, 2021

San Leandro Unified School District

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Directors
San Leandro Unified School District
San Leandro, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of San Leandro Unified School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise San Leandro Unified School District’s basic financial statements and have issued our report thereon dated January 6, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered San Leandro Unified School District’s internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of San Leandro Unified School District’s internal control. Accordingly, we do not express an opinion on the effectiveness of San Leandro Unified School District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether San Leandro Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor’s Report on Compliance for each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Directors
San Leandro Unified School District
San Leandro, California

Report on Compliance for the Major Federal Program

We have audited San Leandro Unified School District’s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of San Leandro Unified School District’s major federal programs for the year ended June 30, 2021. San Leandro Unified School District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of San Leandro Unified School District’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about San Leandro Unified School District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of San Leandro Unified School District’s compliance.

Opinion on each Major Federal Program

In our opinion, San Leandro Unified School District's complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of San Leandro Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered San Leandro Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the San Leandro Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on State Compliance

To the Board of Directors
San Leandro Unified School District
San Leandro, California

Report on State Compliance

We have audited San Leandro Unified School District's (the District) compliance with the types of compliance requirements described in the *2020-2021 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, applicable to the state laws and regulations listed in the table below for the year ended June 30, 2021.

Management's Responsibility

Management is responsible for compliance with the state laws and regulations as identified in the table below.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance with state laws and regulations based on our audit of the types of compliance requirements referred to below. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of the *2020-2021 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements listed below has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.

Compliance Requirements Tested

In connection with the audit referred to above, we selected and tested transactions and records to determine the District’s compliance with laws and regulations applicable to the following items:

	Procedures Performed
LOCAL EDUCATION AGENCIES OTHER THAN CHARTER SCHOOLS	
Attendance and Distance Learning	Yes
Teacher Certification and Misassignments	Yes
Kindergarten Continuance	Yes
Instructional Time	Yes
Instructional Materials	Yes
Ratios of Administrative Employees to Teachers	Yes
Classroom Teacher Salaries	Yes
Early Retirement Incentive	No (see below)
Gann Limit Calculation	Yes
School Accountability Report Card	Yes
K-3 Grade Span Adjustment	Yes
Apprenticeship: Related and Supplemental Instruction	No (see below)
Comprehensive School Safety Plan	Yes
District of Choice	No (see below)
SCHOOL DISTRICTS, COUNTY OFFICES OF EDUCATION, AND CHARTER SCHOOLS	
California Clean Energy Jobs Act	Yes
Proper Expenditure of Education Protection Account Funds	Yes
Unduplicated Local Control Funding Formula Pupil Counts	Yes
Independent Study - Course Based	Yes
CHARTER SCHOOLS	
Attendance	No (see below)
Mode of Instruction	No (see below)
Nonclassroom-Based Instruction/Independent Study	No (see below)
Determination of Funding for Nonclassroom-Based Instruction	No (see below)
Charter School Facility Grant Program	No (see below)

Early Retirement Incentive

The District did not have any employees retire under the CalSTRS Early Retirement Incentive program; therefore, testing was not required.

Apprenticeship: Related and Supplemental Instruction

We did not perform Apprenticeship: Related and Supplemental Instruction procedures because the program is not offered by the District.

District of Choice

We did not perform District of Choice procedures because the program is not offered by the District.

Independent Study - Course Based

For the 2020-2021 school year, Independent Study – Course Based does not apply to School Districts as a result of distance learning, therefore, we did not perform any procedures related to the Independent Study – Course Based Program.

The District does not offer an Independent Study - Course Based program; therefore, we did not perform any procedures related to the Independent Study - Course Based Program.

Charter Schools

The District does not operate any Charter Schools; therefore, we did not perform procedures for Charter School Programs.

Unmodified Opinion

In our opinion, San Leandro Unified School District complied, in all material respects, with the laws and regulations of the state programs referred to above for the year ended June 30, 2021.

The purpose of this report on state compliance is solely to describe the results of our testing based on the requirements of the *2020-2021 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Eide Bailly LLP".

None reported.

None reported.

None reported.

The following findings represent instances of noncompliance and/or questioned costs relating to compliance with state laws and regulations. The findings have been coded as follows:

Five Digit Code	AB 3627 Finding Type
10000	Attendance and Distance Learning
40000	State Compliance
42000	Charter School Facility Grants Program
43000	Apprenticeship: Related and Supplemental Instruction
61000	Classroom Teacher Salaries
70000	Instructional Materials
71000	Teacher Certifications and Misassignments
72000	School Accountability Report Card

2020-001 Code 10000 – Attendance – Independent Study

Criteria or Specific Requirements

Education code requires independent study work product samples used to establish be maintained for subsequent review

Condition

Short term independent study work samples were not available for review at one site.

Questioned Costs

5.23 ADA at P2 and annual, or \$60,134 (5.23 ADA x \$11,497.98/ADA).

Context

Records related to short term independent study at one of eleven sites were not available for review.

Effect

Documents allowing tracing of attendance to the record of work completed and work samples were not provided. Unable to verify that pupil work product samples are related to the assignment pursuant to which the work was undertaken and reflects the curriculum adopted by the board.

Cause

Short term independent study work sample documents were not retained in a manner that allowed for retrieval when necessary.

Repeat Finding (Yes or No)

No

Recommendation

The District should ensure that records of independent study work products are maintained and easily accessible for review when needed.

Current status

Implemented
